

**TEL AVIV UNIVERSITY**

## **Request for Information Regarding Corporation with the High Tech Sector**

In response to a shortage of engineers in Israel and in order to meet student and industry demand and accelerate research, the University aims to significantly expand the capabilities and impact of its Faculty of Engineering, inter alia, through corporation with the high tech sector.

**Tel Aviv University (the "University") is issuing this Request for Information (the "RFI") in order to solicit responses, in connection with establishing an academic corporation with the high-tech sector, in particular with a high-tech company which meets the qualifications set forth in the RFI documents and the construction of a new state of the art research and development ("R&D") centre, which will include facilities for the use of the University's Faculty of Engineering and the company.**

The Company, in coordination with the University, will establish an extensive academic corporation plan aimed at exposing students and researchers to the high-tech industry and integrating hi-tech based activities at the University campuses, in curricula and in research, inter alia, through:

- (i) joint studies in collaboration with students, researchers and senior faculty;
- (ii) joint scientific conferences;
- (iii) conducting joint research;
- (iv) student internships;
- (v) educational programs involving the community.

- The documents of the R.F.I.s published on the website: **[tenders.tau.ac.il](http://tenders.tau.ac.il)**.
- **A response to this RFI is required to be submitted on or before 30<sup>th</sup> AUGUST 2016 until 1200PM.**
- Questions and clarifications can be directed in writing to Miss Ofri Elron via email: [ofriel@tauex.tau.ac.il](mailto:ofriel@tauex.tau.ac.il).
