To Whom It May Concern

This is to confirm that Mashav Refrigeration Engineering (1965) through its mother company Ardan Projects Ltd. Is representing York (Johnson Controls) for many years and we are willingly to support their continued business activities in the field of Applied Air Conditioning and Refrigeration in all sectors of the market, supporting our business strategy in Israel.

Their contact is Rami Kaplan – Tel +972 989 31143
Benny Frilling – Tel +972 989 31133

York is one of the leading Brand Names in Commercial Heating, Ventilation, Air-Conditioning and Refrigeration Equipment, Johnson Controls/York, design, manufacture, & service a wide range of products for air conditioning markets. These include water & air cooled chillers and heat pumps, absorption chillers, air handling units, & air distribution systems, and also Control Systems like access & air conditioning control, fire fight security, CCTV, etc. We have a number of manufacturing plants in different parts of the World. Catering for our customers needs we also have service facilities in most countries.

Mashav has demonstrated significant support for Johnson Controls / York product. We are aware of their efforts in promoting our systems for projects in Israel and we are pleased to work with them to assist in securing the contract, therefore full support with supply and after sales service will be provided with full technical specifications for its projects.

We thank you for the opportunity afforded us. If, you require further information please do not hesitate to contact the undersigned.

Assuring you of our closest attention at all times, we remain

Best regards,
